

The portrait can begin with an idea.

ONE CONCEPT. ONE LOCATION. ONE WALL.

A photograph becomes a work of art.

The Masterpiece finish combines digital artistry with physical acrylic texture and hand-applied color on canvas.

01 Photograph & refine

A guided portrait session and artistic refinement establish the image.

02 Paint digitally & print

Digital painting develops the portrait before it is printed on canvas.

03 Embellish & frame

Physical acrylic texture and hand-applied color add brushstroke character. The approved artwork is completed with a considered frame.

Plan two dates

The gift date

When would you like to present the invitation?

The artwork date

Is there a separate date by which you hope to receive the finished piece?

Session scheduling, hand finishing, approval and framing all need room in the plan. Timing is reviewed before you reserve.
